Automatic variable load

Water protection system

Buffer memory

Door opening: 170°

Brushless / Inverter

Polypropylene tank

Stainless steel drum

Direct motion

Wool cycle has been approved by
'The Woolmark company': M14104

Nominal power: 2200 W

Total annual water consumption: 13200 L

Washing efficiency: class A

Noise level washing: 59 dB(A) re 1pW

Spin efficiency: class B

Noise level spinning: 76 dB(A) re 1pW

Max spin speed 1400 rpm

Current: 10 A

Frequency: 50 Hz

Voltage: 230 V

Plus and Options

A+++:

Appliances with this symbol can reduce energy consumption by a further 30% from the standard A energy rating.

Load capacity 11 kg:

Drum has maximum capacity of 11kg of dry laundry.

Volumeplus:

Smeg offers models with load up to 8 kg, while maintaining the best washing results, and providing low energy consumption.

Total acquastop:

Most models of Smeg dishwashers are equipped with Acquastop Totale, which allows to avoid flooding as a result of water leakage. The system consists of a float sensor, disposed under the inner chamber of a dishwasher, which blocks water supply inside the appliance in case of water leakage into the lower tray. An additional electromagnetic valve on the water inlet hose also automatically blocks water supply if detecting water leakage in the hose. For Laundry: Total acquastop, the product is built with 3 levels of anti-flood devices to ensure protection against water leakage. For Laundry: Total acquastop, the product is built with 3 levels of anti-flood devices to ensure protection against water leakage.

Automatic Load Balancing:

provides an ideal distribution of laundry in the drum. In case if the imbalance is detected, the rotation speed starts being controlled in such way to evenly redistribute laundry in the drum, and thus reduce vibration.

Variable load:

In all models of washing machines is present the system of variable load, according to which the machine automatically diversifies the wash cycle and the time of operation depending on the quantity and type of laundry introduced, allowing a significant saving of water and energy power, up to 30% compared to the versions with fixed load.

34 cm:

Large loading hatch of 34 cm in diameter, makes laundry loading and unloading easier and faster with maximum ease of use.

Spin speed control:

On the control panel there is a spin speed control knob. In some models, the maximum spin speed is 1400 rpm / min. You can also to exclude spin.

LCD display:

to show programmes, functions and options selected and the time to the end of the cycle.

Delay timer:

can be set to run the programme at a convenient time or to take advantage of off-peak energy periods.

Easy Iron:

this is an option which can be selected to ensure the finished laundry is left with less creases to make ironing easier.

Extra Rinse:

Extra Rinse: adds an extra rinse cycle to that already provided in the program chosen, to remove any residual detergent. This function is particularly suitable for those with allergies or skin problems.

Prewash:

program designed for heavily soiled garments.

Inverter technology:

The evolution of Smeg's driers towards more intelligent and environmentally sustainable models has led to the choice of using Inverter technology with heat pumps, which reduces significantly energy consumption.

Steam Option:

Steam Option

Direct Motion:

 electronic management ensures maximum performance at any spin speed, along with more silent operation and greater safety when washing delicate items, thanks to a significant reduction in vibration. For models with 11 kg load capacity.

Programs

Antiallergic:

Antiallergic program with particular attention to the total removal of residual detergent.

Woolmark Wool Hand Wash Safe:

For Washing Machines: The wool wash cycle of this machine has been approved by The Woolmark Company for the washing of wool garments labelled as "hand wash" provided that the garments are washed according to the instructions issued by the manufacturer of this washing machine. Follow the garment care label for drying and other laundry instructions. For Dryers: The wool drying cycle of this machine has been approved by The Woolmark Company for the drying of wool garments labelled as "hand wash" provided that the garments are dried according to the instructions issued by the manufacturer of this machine. Follow the garment care label for other laundry instructions. "In UK, Eire, Hong Kong and India the Woolmark trade mark is a Certification trade mark."

Hand wash:

this specific programme for delicate fabrics uses slower rotations of the drum to ensure the utmost care for clothing.

Super fast 14 min.:

a programme designed to wash small amounts of laundry fast, ideal for washing lightly soiled garments.

Duvet:

gentle cycle specific for duvet.
